CARRION OF THE DESERT.

The Republican and Democratic parties in convention assembled last fall both declared in their party platform that they would pledge themselves to the voters of the state of Nevada that a sound banking law would be placed upon our statute books during the present session. Both great parties have wilfully lied to the voters, thus proving beyond a peradventure that platforms are not made to be kept sacred but to catch votes.

The Republicans by their votes in the senate and assembly ignored their party pledges and endorsements of their platform by voting to exclude the "guarantee deposits" clause from the banking bill, thus proving the value of their promises worthless, and the Democrats who voted with the Republicans proved they were Benedict Arnolds of the foulest stamp of humanity.

There is no excuse for the senators of both parties to offer for their doings in voting for the only measure that was to benefit the people of this state that was before them during the present session.

Honor with them or the definition of the word has never penetrated their gray matter.

Senators Hunter and Coryell of Elko county are the two members that turned the dirty trick. These same two men were idols in the eyes of the moralists during the anti-gambling bill discussion, but to the honest class of citizens in Nevada they are carrion of the hot desert.

ADDITIONAL HYDRANTS.

The conflagration of yesterday morning again demonstrates the need of additional hydrants in the vicinity of upper Florence avenue. At the last several fires in this district the buildings have suffered total destruction simply for the lack of a hydrant.

This matter has been brought to the attention of the county commissioners several times, but nothing has ever resulted. The residents in this portion of the town are taxpayers and are entitled to fire protection the same as those living in the protected part of Tonopah. There are several fire hydrants stored away in a warehouse in this city that a committee of business men asked the commissioners to install.

The board communicated with the United Tonopah Water company, who asked an almost prohibitive rate for the additional hydrants, and there the matter was allowed to drop. In the meantime the entire upper end of Florence and Belmont avenues may be destroyed by fire for their only protection is the lone hydrant nearly a quarter of a mile away.

It will take a million dollars to propel our ship of state for the next two years. It shows we are progressive.

STOCK MARKET

The market opened somewhat weak yesterday, but at the closing the stocks came back to the closing of Friday. Tonopah Mining lost 10 points, while Montana advanced 4. There was no change among the remaining local securities. Goldfield Consolidated dropped 12½ points and Florence declined 2½ points.

DEATH LIST OF FIRE VICTIMS INCREASES

HENRY KOPPENBERG DIES LAST EVENING AS RESULT OF BURNS RECEIVED.

Henry Koppenberg, who was so frightfully burned in the Millers fire Wednesday evening, and who has been a patient at the Miners hospital since that date, passed away last evening about 7:30 o'clock. His condition changed for the worse yesterday morning and everything possible was done to prolong his life but to no avail.

But little could be learned about the deceased last evening. It is thought that he has no relatives in the United States, all residing in Germany, of which country he was a native. He was employed at the Lindsay hotel as a baker, and had worked there for some time. He is highly spoken of by his many acquaintances in Millers. The date of the funeral has not as yet been announced.

DISMISSES SUIT AGAINST THE I. W. W.

L. C. BRANSON WITHDRAWS CHARGES PREFERRED TWO YEARS AGO.

The suit of L. C. Branson of the Tonopah Sun vs. the I. W. W., which has been dragging along in the district court for several years, was dismissed yesterday at the request of the plaintiff. It was rumored around the streets last evening that a suit would be filed against Branson for damages by the Miners' union for the loss of \$5000 which was attached by Branson in the State Bank and Trust company, and which is now lost to the union owing to the defunct bank being out of business. The Bonanza could not verify the statement last night as the local miners' union officials could not be located.

TWO COMPANIES INCORPORATE.

Articles of incorporation were filed yesterday at the county clerk's office for the Eagle Mining company of Round Mountain with its principal office to be in Belmont. The capitalization is placed at \$1,000,000, with the same number of shares at the par value of \$1. The incorporators are Edward Livingstone, Frederick W. Johnson and Albin Smith, all of Patterson, New Jersey.

Articles were also filed for the Pioneer Central Leasing and Milling company, with office in Pioneer. The company has a capitalization of \$1,000,000. The incorporators are W. B. Stewart, G. H. Cook and G. K. Vaun, all of Pioneer.
